

# DIVERS INSTITUTE OF TECHNOLOGY

Each Student is required to have the following equipment and supplies. This equipment list is discussed in detail at Orientation. All diving equipment is required by the 5th week of training, for the first day of the Lightweight Class. Estimated cost of the required, basic dive equipment is between \$3,800 and \$4,500.

**Equipment available for purchase through NW Dive Supply and can be included into your financial aid package.**

**1341 N. Northlake Way, Ste. 100, Seattle, WA, 98103 (206) 582-5346**

- Dry Suit with Inflation Whip: Must meet requirements for Canadian Certification (CSA Z275.4). You must have an inflation whip with this suit. You do not need a wet suit for training purposes at DIT
  - Five Finger Diving Gloves and Hood: Neoprene five-finger gloves and a dry-suit hood to be able to use with Full Face Masks
  - Mask, Snorkel, and Open-heel Fins
  - Gear Bag: Minimum carrying capacity 100L
  - Snoopy Cap (hat liner): A snoopy cap is a custom-made liner to wear under dive helmets. Because the snaps must be configured to fit different DIT training helmets, we recommend purchasing this through DIT.
  - Bailout Regulator Set: First stage, Bailout Hoses w/B.B. Lock, Pressure Gauge w/boot, Over Pressurization Valve, Inspection Sleeve, & Regulator Bag
  - Dive Knife: Stainless Steel, folding, and locking knife
  - Brass Clip / Shackle: To hang knife from harness on dives
  - Dive Watch: Water resistant to 200 meters. Must have stopwatch function or a rotating bezel. You must be able to see it underwater.
  - Underwater Flashlight with batteries
  - Over Boots/Chafing Boots: Any rubber or canvas work boots that are worn over drysuit booties while in the water. (For protection of the feet and neoprene booties) Not necessary if drysuit has boots attached.
  - Undergarments: Wicks sweat and insulates the diver from the cold water.
-
